

Skills training questionnaire

In order to identify the training needs of the club membership, I have decided to ask everyone about the skill development courses (SDCs) that they have already been on, and those that they would like to attend. Once we have identified the biggest training 'gaps', I hope to be able to organise running the courses, or at least give people the chance to do them. Unfortunately neither BSAC or the club have records of individuals skills training.

Please take time to fill in the form below, with dates whenever possible. This information can then be used to start a central training record for the club.

Many thanks. Richard Aldridge Diving officer.

Name: _____ Membership # _____

Current qualification level: _____

Course title	Attended date	Would like to do ✓
Boat handling		
Diver Cox'n		
Chart work and position fixing		
Oxygen administration		
Practical rescue management		
Lifesaver

Marine life identification		
Nautical archaeology		

Instructor training leading to open water instructor		
Cave diving *		

* These courses are not run by BSAC.
 If there are courses you have attended that are not on the list above,
 please add them into the blank columns.
 If there are courses that you would like to do that are not on the list,
 please add them.
